

Large areas cleverly roofed and charged with sun power

+ Double value of properties

With our modular WIDESPAN
roof systems.

+ Maximization of available space

Individual solutions for maximum
utilization of PV-systems.

+ Turnkey system

From potential analysis to
implementation and
commissioning.

+ Made in Germany

More than 170 years of history
in safety-related steel.

NEW NOW

WIDESPAN modular roof systems with PV technology.

The perfect solution for your large useable and parking lots are our innovative WIDESPAN roof systems with PV technology.

We quickly and effectively cover your large areas and parking lots with PV technology that is sustainable and consequently make an important contribution to e-mobility.

The plus of ROOF+ MODULAR SOLAR SYSTEMS:

- + Maximized **double-value** of your properties by **span widths of 15m/20m** = Reduced number of supports and foundations.
- + With our modular system, we combine **cost-effectiveness and sustainability** in a unique way.
- + **Re-use: A durable system.** Can easily be relocated.
- + **Short assembly times** thanks to the high degree of prefabrication.
- + **Turnkey**, if desired. Including all disciplines.
- + **High quality standards** (galvanization/corrosion protection).
- + **Made in Germany**

ROOF+ takes care of your climate-neutral power supply.
